Re: Request for Plan Update Regarding Surety Calculations, Geneva Rock Products, Inc, Pelican Point Quarry, M0490011, Utah County, Utah

Dear Mr. Clyde:

The current surety amount held by the Division is \$497,400.00, however, the approved Notice of Intention to Conduct Mining Operations (NOI) surety calculation section indicates the bond amount of \$301, 778.00. At this time, additional information is required to determine the scope of reclamation work secured by the surety amount of \$497,400.00.

Please submit an update surety estimate calculation sheet reflecting the costs associated with the total bond amount of \$497,400.00. In addition, the plan was approved at an incorrect escalation rate of 1.14%. This issue and possibly others will be addressed once the Division receives the updated surety estimation sheet. Please submit this change with the completed form MR-REV.

*Please submit this NOI change associated with the surety calculation by May 7, 2008.*

If you have any questions concerning this letter, please contact me at (801) 538-5258.

Sincerely,

Susan M. White  
Mining Coordinator  
Minerals Regulatory Program
